Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant is amending independent claims to further define over prior art; specifically, "...During a scan of the subject, wherein the system measures motion of the subject independent and simultaneously with the scanning of the subject..." "...While the scanning is performed..." Examiner and Applicant both agree that this amendment at least preliminarily seems to overcome the art of record, by establishing that the updating of the slice prescriptions happens during scanning of the subject, rather than after scanning is completed.
